Crafting Next-level Digital Learning Experience

Scalefusion

DIGITAL **CLASSROOM IS** THE FUTURE

Students believe that digital learning technology somewhat or greatly increases engagement with course materials.

Teachers believe digital learning content will replace printed textbooks within the next 10 years.

CURRENT DIGITAL **ADOPTION**

K–12 teachers use technology in the classroom daily.

Students daily use devices for learning.

DIGITAL LEARNING IS **CHALLENGING!**

Education professionals cite internet safety as the #1 Digital Challenge.

Education professionals find Device Management as their biggest challenge.

IMPACT OF DIGITIZATION

MITIGATE RISK

3

K-12 Schools Experienced 122 Cyber Attacks in 2018.

A New Cybersecurity Incident Strikes K-12 Schools Nearly Every Three Days.

Administrators don't have control on the way students and teachers access devices and consume content.

A Mobile Device Management (MDM) solution can help you manage and secure your devices, data and apps.

WHAT MDM CAN DO?

- Device, content and application management ightarrow
- Enforce institute level security policies
- Remotely control managed devices
- Control student's access to unproductive websites, applications \bullet and digital resources
- Device health monitoring, location tracking and security alerts
- Ensure device-level security with passcode and remote device lock/unlock

Introducing Scalefusion:

World's first context-aware MDM solution that works best for every use case.

Explore www.scalefusion.com to make your digital learning experience more secured, focused and effective.
